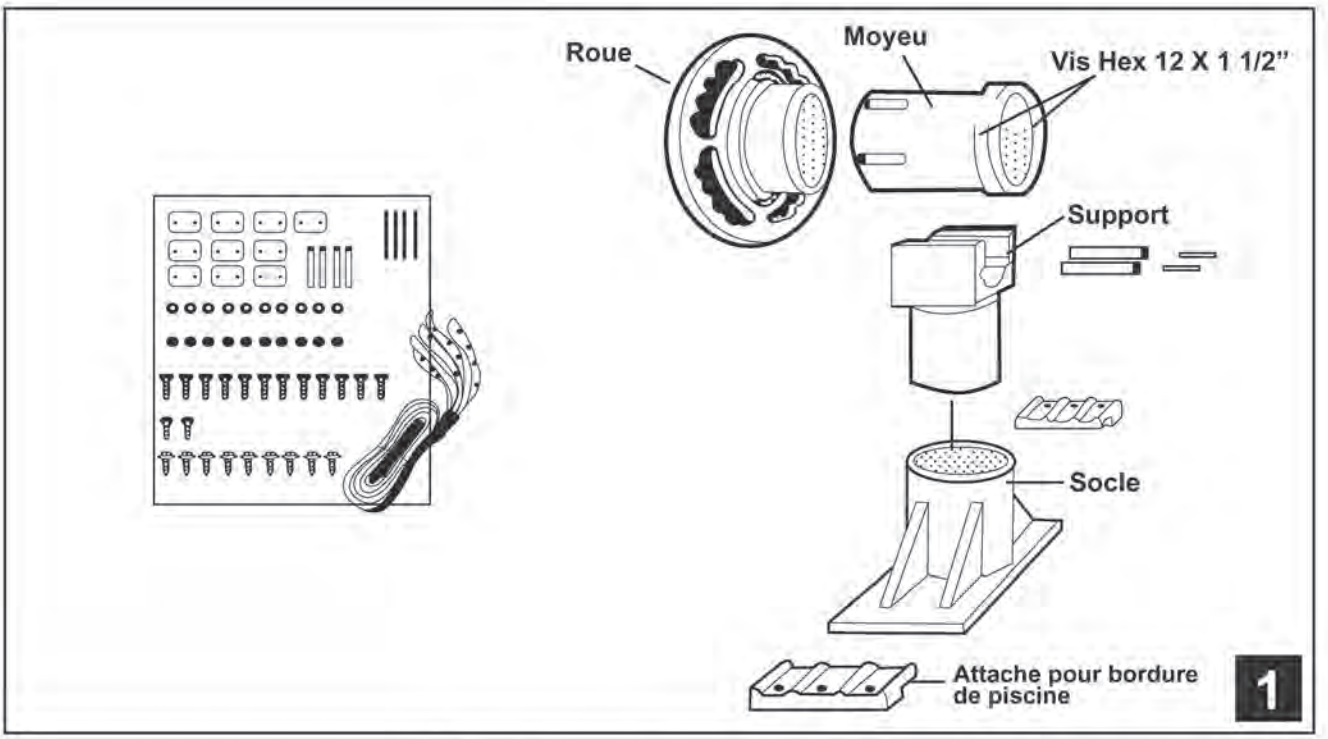
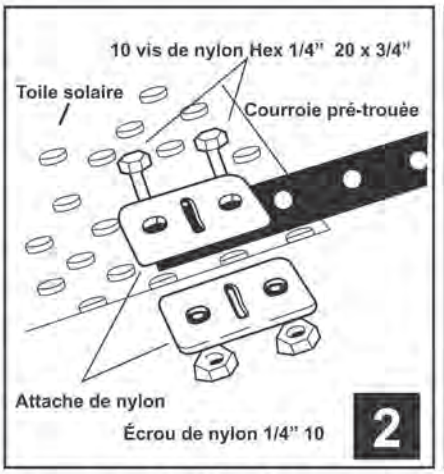
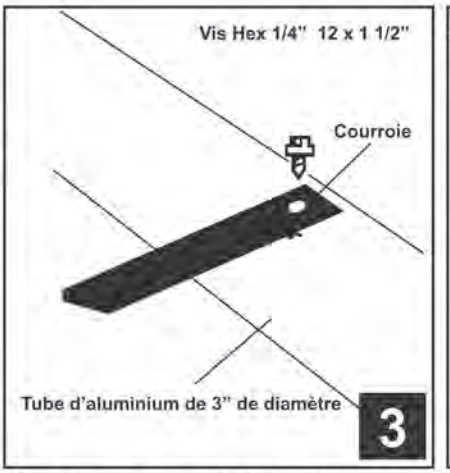
FEUILLE D'INSTRUCTION

751330

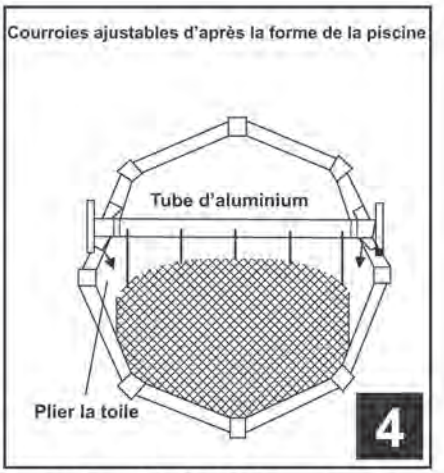




Lorsque vous installez les courroies à la toile solaire, elle doivent être à égale distance entre elles. La longeur des courroies doit être ajustée en fonction de la forme de la piscine.



Vous devez percer le tube d'aluminium pour y fixer les courroies qui sont déjà reliées à la toile solaire.



Repliez l'excédent de toile vers l'intérieur avant de la rouler.
